

FERROSILICON

STALLION ENERGY'S are one of the leading Ferro Alloy Silicon Exporters and Supplier based in Rajkot, Gujarat. We offer superior quality Ferro Silicon Magnesium Alloys that are specially mined and processed at our in-house and technologically advanced processing units. Tested for quality, purity, chemical composition and mineral content, our Ferro Silicon has been termed as the best available mineral for processing cast iron. Apart from this the Ferro Silicon Powder provided by us is widely used in numerous industrial applications because of its unmatched quality and purity. The easy availability of our Ferro Silicon Pellets at competitive prices also acts as an added

advantage for our clients, who can avail voluminous quantities of Ferro Silicon Alloy from us at any point of time.
